West Sound Tech is a ten school district educational cooperative serving students in the Bremerton, Central Kitsap, Chimacum, North Kitsap, North Mason, Peninsula, Quilcene, Bainbridge Island, South Kitsap and Port Townsend School Districts providing advanced career and technical programming preparing students for career and college.

WST provides opportunity for students between the ages of 16 and 21 or in grades 11 or 12 to engage in advanced career and technical education programming as part of the public educational system at no cost to the student. This provides students with the opportunity to get a jump-start on a post-secondary education and introduction to living-wage career opportunities.

Students learn the technical knowledge and skills to prepare them for advanced placement in apprenticeships, technical schools, two- and four- year colleges and universities, or go directly to entry-level employment in their career interest area.
